ATS Volvo VNL 2025 + Volvo VNR Electric Release

Today, we're excited to bring not one, but two new additions to American Truck Simulator! Whether you prefer the power and comfort of long-haul trucking or the cutting-edge innovation of electric mobility, this update delivers something special for every kind of driver. Introducing the all-new 2025 Volvo VNL and Volvo VNR Electric!

From refined aerodynamics and driver-focused interiors to sustainable, zero-emission technology, both vehicles showcase Volvo's commitment to innovation and performance. Let's take a closer look at what each of these incredible trucks has to offer.

Volvo VNL 2025

The all-new Volvo VNL arrives in American Truck Simulator as a step forward in long-haul trucking. Designed with efficiency, comfort, and modern styling in mind, this truck is built to conquer the open road.

A wide range of customization options is also available, including chassis configurations, paint jobs, accessories, and much more. This also includes a special paint job for the SCS box trailer.

Under the hood, players can select from a variety of powerful engine options paired with smooth transmissions, delivering the performance and reliability expected from a modern long-haul truck.

Volvo VNR Electric

Alongside the VNL, we're proud to introduce the Volvo VNR Electric, bringing the first electric truck to American Truck Simulator. While the VNL is a full-size truck that you can own, customize, and expand your fleet with, the VNR Electric is available exclusively through Quick Jobs, giving players a chance to experience electric trucking in a curated way.
